## NOTICES

### GOVERNMENT MOTIONS

4. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1986, and ending June 30, 1986, such payments to be charged to the proper appropriation following the voting of Supply.
  5. *Debated May 13 and 14, 1986.*

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

- growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future.
33. *Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports.
34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade

enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.

35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.
  36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
  37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
  38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.

## QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

---

278. *Mrs. Grier*—Enquiry of the Ministry—Would the Minister of the Environment report on the total amount of money expended by his ministry to clean-up the PCB spill in Kenora in April 1985. Would the Minister report the breakdown of these costs including repairs to the highway, removal of contaminated parts of the highway, etc. Would the Minister also report whether the owner of the Husky Station who was forced to close as a result of this spill has been compensated and whether any other businesses that have been affected by the spill have been compensated. *May 8, 1986.*
279. *Mr. Shymko*—Enquiry of the Ministry—Would the Minister of Citizenship and Culture provide the name(s) and position(s) of the individual(s) who prepared the Ministry document entitled “Multiculturalism: How is the Liberal Government Different?”; whether it is the practice of the Minister to disassociate herself from all documents prepared by her Ministry, or only a select few; what instructions have been given Ministry employees for future preparations of multicultural documents. *May 12, 1986.*
280. *Mr. Davis*—Enquiry of the Ministry—Would the Minister of Education provide the salary of Dr. Graham Orpwood in his capacity as special advisor; the names and positions of any staff which will report to Dr. Orpwood; the salaries of these individuals; whether the salaries for staff, including Dr. Orpwood, have been included in the \$3 million budget for the program to renew science education. *May 13, 1986.*
281. *Mr. Brandt*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide the names of all individuals who accompanied him for all or part of his trip to Germany; the total length of the Minister’s trip; the total cost of the trip; the cost borne by the taxpayers of Ontario; the breakdown and nature of these costs; the meetings, talks, correspondence with government officials, independent business; dates, times, individuals in attendance during these interactions; the nature of any agreements signed during or because of this trip. *May 15, 1986.*
282. *Mr. Wildman*—Enquiry of the Ministry—Would the Minister of Natural Resources provide all cost-benefit analyses completed by the Ministry of the current downgrading of the operation of the Kirkwood MNR office (in the Blind River District) to two days each week; all cost-benefit analyses completed by MNR of the proposed closure of the Kirkwood office; and explain how the downgrading and/or closure of this office will improve the efficiency and cost-effective operation of the Blind River MNR District and service to the public of the area. Also, would the Minister provide figures that demonstrate that the “consolidation” of the Kirkwood office and

MNR's Thessalon Tree Nursery would result in significant savings. *May 15, 1986.*

### Ballot Item No. 1

*Mr. Villeneuve*—Resolution—That in the opinion of this House, the Government should permit the use of tax-free gasoline and fuel by farm commercial vehicles licensed in Ontario under the Highway Traffic Act, as lower farm input costs will benefit both producer and consumer and high agricultural input costs lessen the producers' ability to compete with subsidized foreign imports. *To be debated today.*

### Ballot Item No. 2

*Mr. Morin-Strom*—Resolution—That in the opinion of this House, recognizing that the water resources of both the Great Lakes Basin and the James Bay Basin are precious public resources, and recognizing the constitutional jurisdiction of the Province of Ontario to manage and protect its fresh water resources, and recognizing the Great Lakes Charter to which Ontario is a signatory, and recognizing that Simon Reisman, Canada's chief trade negotiator has publicly stated that the Grand Canal project could provide key leverage to negotiate a free trade deal with the United States, this House condemns any attempt to link free trade with diversion of Ontario's water resources; that water resources can not be part of any trade discussions with the United States; and that Ontario will not consent to any major diversion of its fresh water, now or in the future. *To be debated today.*

### Ballot Item No. 3

*Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary. *To be debated on Thursday, May 22, 1986.*

### Ballot Item No. 4

*Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters. *To be debated on Thursday, May 22, 1986.*

**Ballot Item No. 5**

*Second Reading Bill 3, An Act for the Provision and Integration of Community Based Services for Seniors. Mr. Warner. To be debated on Thursday, May 29, 1986.*

**Ballot Item No. 6**

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier. To be debated on Thursday, May 29, 1986.*

**Ballot Item No. 7**

*Mr. Gregory—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities. To be debated on Thursday, June 5, 1986.*

**Ballot Item No. 11**

*Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. To be debated on Thursday, June 19, 1986.*

**Ballot Item No. 24**

*Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.*

## NOTICES

### GOVERNMENT MOTIONS

4. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1986, and ending June 30, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

5. *Debated May 13, 14 and 15, 1986.*

---

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

- growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

- assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
32. *Debated May 14, 1986.*
33. *Debated May 14, 1986.*
34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
  37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
  38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.

255. *Mr. Barlow*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology advise the House why the Ministry's book entitled, "Starting a Small Business in Ontario", is currently being sold in the Ontario Government bookstore for \$3.00 when it was established during the Ministry's Estimates that the booklet cost \$1.25 to produce. Is it the usual practice of this Government to make a 140% profit at the expense of the taxpayers who have already funded the book's publication. If so, what are these profits used for. If this is not so, is the Government prepared to make retribution to the taxpayers that have been abused. Would the Minister also advise the House why a consultant at the Willowdale Branch of the Ontario Development Corporation told a citizen that the Ministry's booklet could be obtained at the Ontario Government bookstore "for about 75¢". Since this is obviously incorrect, would the Minister assure the House that all staff are adequately informed about this publication to provide the public with the correct information. *April 23, 1986.*
256. *Mr. Cousens*—Enquiry of the Ministry—Would the Minister of Agriculture and Food give the names of companies that have received approval and the names of companies that have not received approval regarding amendments allowing for development on prime agricultural land, in York, Durham and Peel from July 1, 1985 to January 31, 1986. *April 23, 1986.*
257. *Mr. Runciman*—Enquiry of the Ministry—Would the Chairman of the Management Board of Cabinet please provide a list of the five travel firms who have had the highest volume of government business since July 1, 1985, along with the amount in dollars. *April 23, 1986.*

258. *Mr. Cousens*—Enquiry of the Ministry—Would the Minister of Community and Social Services table information regarding the Ministry's review of Ontario's social welfare/family benefits system. Specifically, the dates of the review, a list of individuals involved in the review, their respective positions and salaries, whether they have been hired solely for this review or have been seconded from a civil service position; how much will the review cost and how many man-hours will be spent on the review; will public input be solicited for this review; if so, how and where. *April 24, 1986. ## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

**Ballot Item Nos. 1 and 2. Debated on Thursday, May 15, 1986.**

**Ballot Item No. 3**

*Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies. *To be debated on Thursday, May 22, 1986.*

**Ballot Item No. 4**

*Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters. *To be debated on Thursday, May 22, 1986.*

**Ballot Item No. 5**

*Second Reading Bill 3, An Act for the Provision and Integration of Community Based Services for Seniors. Mr. Warner. To be debated on Thursday, May 29, 1986.*

**Ballot Item No. 6**

*Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of

new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary. *To be debated on Thursday, May 29, 1986.*

Ballot Item No. 7

*Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities. *To be debated on Thursday, June 5, 1986.*

Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.*

Ballot Item No. 24

*Mr. Callahan*—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

### GOVERNMENT MOTIONS

4. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1986, and ending June 30, 1986, such payments to be charged to the proper appropriation following the voting of Supply.
  5. *Debated May 13, 14, 15 and 20, 1986.*

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment

Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.

37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
  38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.
  39. *Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes.

## QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

---

281. *Mr. Brandt*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology provide the names of all individuals who accompanied him for all or part of his trip to Germany; the total length of the Minister's trip; the total cost of the trip; the cost borne by the taxpayers of Ontario; the breakdown and nature of these costs; the meetings, talks, correspondence with government officials, independent business; dates, times, individuals in attendance during these interactions; the nature of any agreements signed during or because of this trip. *May 15, 1986.*
  282. *Mr. Wildman*—Enquiry of the Ministry—Would the Minister of Natural Resources provide all cost-benefit analyses completed by the Ministry of the current downgrading of the operation of the Kirkwood MNR office (in the Blind River District) to two days each week; all cost-benefit analyses completed by MNR of the proposed closure of the Kirkwood office; and explain how the downgrading and/or closure of this office will improve the efficiency and cost-effective operation of the Blind River MNR District and service to the public of the area. Also, would the Minister provide figures that demonstrate that the “consolidation” of the Kirkwood office and MNR's Thessalon Tree Nursery would result in significant savings. *May 15, 1986.*
  283. *Mr. Johnston* (Scarborough West)—Enquiry of the Ministry—Would the Minister of Community and Social Services please table in the House the guidelines for Social Assistance Review board members in the conducting of appeals and the writing of decisions. *May 20, 1986.*

## NOTICES

### GOVERNMENT MOTIONS

4. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing June 1, 1986, and ending June 30, 1986, such payments to be charged to the proper appropriation following the voting of Supply.
  5. *Debated May 13, 14, 15, 20 and 21, 1986.*

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
- 10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
- 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
- 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
- 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
- 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
- 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose..
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

- assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
  31. *Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies.
  34. *Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters.
  35. *Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary.
  36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment

Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.

37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
  38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.
  39. *Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 3

*Mr. Haggerty*—Resolution—That in the opinion of this House, recognizing the serious nature of high levels of water along Ontario's shoreline, resulting in severe loss or damage to properties, a provincial flood insurance program should be established, to ensure that flood damage insurance is available to property owners in identified floodplains, and to encourage more effective floodplain management. The goals of the program would enable property owners in areas susceptible to flooding to purchase flood insurance which might otherwise not be available and the development of regionally based programs or corrective and preventative measures for reducing flooding and flood damage in hazardous areas, as a prerequisite for eligibility in the flood insurance program could result. Such an insurance program is designed to reduce the escalating costs of property damage caused by floods and is generally unavailable from the private sector insurance companies. *To be debated today.*

### Ballot Item No. 4

*Mr. Andrewes*—Resolution—That in the opinion of this House, the Government, through the Ministry of Agriculture and Food, should establish a trade unit, within the Marketing Branch of the Ministry. The purpose of this unit would be to monitor and participate in international trade discussions under GATT, and the current discussions on trade enhancement with the United States; to determine opportunities and/or potential damage from trade enhancement discussions; to compile a bank of information on internationally traded food commodities, including the country of origin, production conditions and costs of production and the form and amount of any government assistance. These initiatives would provide Ontario producers, processors and exporters with a data base to assist in planning production, researching markets and arguing cases before the Tariff Board and other Bodies governing international trade matters. *To be debated today.*

### Ballot Item No. 5

*Second Reading Bill 3, An Act for the Provision and Integration of Community Based Services for Seniors. Mr. Warner. To be debated on Thursday, May 29, 1986.*

### Ballot Item No. 6

*Mr. Knight*—Resolution—That in the opinion of this House, recognizing that Ontario's wetlands are necessary to protect our vital and delicate ecosystem, are important for flood control programs and are a potentially important component of waste treatment systems, the Government of Ontario should introduce a comprehensive wetlands strategy that will protect existing wetlands and promote the creation of new wetlands where environmentally advisable, recognizing that incentives for the agricultural community are necessary. *To be debated on Thursday, May 29, 1986.*

### Ballot Item No. 7

*Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities. *To be debated on Thursday, June 5, 1986.*

### Ballot Item No. 8

*Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes. *To be debated on Thursday, June 5, 1986.*

### Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

### Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act.* *Mr. Poirier.*

### Ballot Item No. 24

*Mr. Callahan*—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

  5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6)

calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

0. **Mr. Wildman**—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
1. **Mr. Wildman**—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
5. **Mr. McCague**—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. **Mr. Wildman**—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. **Mr. Wildman**—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. **Mr. Mackenzie**—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
35. *Debated May 29, 1986.*
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.
39. *Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the

growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.

41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
  1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

## QUESTIONS

## NOTICES

### GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.
39. *Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inade-

quate no-fault compensation;—excessive premiums and escalating rates generally.

41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
  1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item No. 7

*Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities. *To be debated on Thursday, June 5, 1986.*

Ballot Item No. 8

*Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes. *To be debated on Thursday, June 5, 1986.*

Ballot Item No. 9

*Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings. *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 10

*Second Reading Bill 45, An Act to amend the Labour Relations Act. Mr. Barlow.* *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 13

*Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents. Mr. O'Connor.* *To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

*Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act. Mr. Pouliot. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.*

Ballot Item No. 24

*Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.*

## NOTICES

### GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
  
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
  
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.
39. *Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate

quate no-fault compensation;—excessive premiums and escalating rates generally.

41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
  1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.

## QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

---

300. *Mr. Cooke* (Windsor-Riverside)—Enquiry of the Ministry—Would the Minister of Health provide a list of how many physicians are billing under G 467 of the OHIP Schedule of benefits for physiotherapy procedures. What was the volume of claims submitted under this schedule in 1984 and 1985. *May 29, 1986.*
  301. *Mr. Runciman*—Enquiry of the Ministry—Will the Minister of Financial Institutions indicate the number of additional employees to be hired—permanent and/or contract—as the result of the creation of this Ministry. Would the Minister break this down into individual jobs with an indication of the expected salary levels. *May 29, 1986.*
  302. *Mr. Philip*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet table all terms of reference and conditions of any contracts signed within the last year between Canada Consulting Group Inc. and any Ontario government ministry, agency, board, commission or committee of the legislature. Would the Minister table the total amount of money contracted with this company as well as the amounts of each individual contract. *June 3, 1986.*

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.
39. *Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inade-

quate no-fault compensation;—excessive premiums and escalating rates generally.

41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
  42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
    1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
    2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
    3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
  43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.

## QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

---

300. *Mr. Cooke* (Windsor-Riverside)—Enquiry of the Ministry—Would the Minister of Health provide a list of how many physicians are billing under G 467 of the OHIP Schedule of benefits for physiotherapy procedures. What was the volume of claims submitted under this schedule in 1984 and 1985. *May 29, 1986.*
301. *Mr. Runciman*—Enquiry of the Ministry—Will the Minister of Financial Institutions indicate the number of additional employees to be hired—permanent and/or contract—as the result of the creation of this Ministry. Would the Minister break this down into individual jobs with an indication of the expected salary levels. *May 29, 1986.*
302. *Mr. Philip*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet table all terms of reference and conditions of any contracts signed within the last year between Canada Consulting Group Inc. and any Ontario government ministry, agency, board, commission or committee of the legislature. Would the Minister table the total amount of money contracted with this company as well as the amounts of each individual contract. *June 3, 1986.*
303. *Mr. Dean*—Enquiry of the Ministry—Would the Minister Without Portfolio responsible for Senior Citizens Affairs provide an accounting of the expenditures made to date out of the 11 million dollar fund for the extension of community support services for the elderly which he announced on January 28, 1986. *June 4, 1986.*
304. *Mr. Dean*—Enquiry of the Ministry—Would the Minister Without Portfolio responsible for Senior Citizens Affairs provide a detailed account of all costs incurred by the Government of Ontario to date in the preparation of his white paper on provision of services to the elderly, including all travel expenses incurred by himself and his staff during the consultation process. *June 4, 1986.*
305. *Mr. Rowe*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation report on where the new roadside rest stops are to be located, how many will be added and at what cost. *June 4, 1986.*
306. *Mr. Rowe*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation indicate whether the new slogan, “Ontario Incredible” was tested in any of the markets where the commercials are now running. If the new slogan and the new commercials were tested, could the Minister tell us where, by whom, at what cost to the province, and what the results of the tests were. *June 4, 1986.*

307. *Mr. Rowe*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation provide the criteria by which he will prove a return on investment for the costs associated with his Ministry's new commercials, and on what basis he will share that information with the House and Members of the Legislature and the tourism industry. *June 4, 1986.*
308. *Mr. Cossens*—Enquiry of the Ministry—Would the Minister of Community and Social Services provide the terms of reference for his review of behaviour modification techniques in provincial institutions. Specifically, which institutions will be reviewed, how many clients who receive this treatment will be reviewed, what are the approximate ages of these clients. *June 4, 1986.*
309. *Mr. Cossens*—Enquiry of the Ministry—Would the Minister of Community and Social Services table information regarding the Ministry's review of behaviour modification techniques in provincial institutions for disturbed youngsters and mentally retarded people. Specifically, the dates of the review, a list of individuals involved in the review, their respective positions and salaries, whether they have been hired solely for this review or have been seconded from a civil service position; how much will the review cost and how many man-hours will be spent on the review; will public input be solicited for this review; if so, how and where. *June 4, 1986.*
310. *Mr. Hennessy*—Enquiry of the Ministry—Would each Minister provide a list of former provincial or federal Liberal candidates who are now employed full or part-time on any Minister's personal staff. *June 4, 1986.*

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
  
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
  
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
38. *Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities.
39. *Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inade-

quate no-fault compensation;—excessive premiums and escalating rates generally.

41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
  42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
    1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
    2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
    3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
  43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.

## QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

---

300. *Mr. Cooke* (Windsor-Riverside)—Enquiry of the Ministry—Would the Minister of Health provide a list of how many physicians are billing under G 467 of the OHIP Schedule of benefits for physiotherapy procedures. What was the volume of claims submitted under this schedule in 1984 and 1985. *May 29, 1986.*
301. *Mr. Runciman*—Enquiry of the Ministry—Will the Minister of Financial Institutions indicate the number of additional employees to be hired—permanent and/or contract—as the result of the creation of this Ministry. Would the Minister break this down into individual jobs with an indication of the expected salary levels. *May 29, 1986.*
302. *Mr. Philip*—Enquiry of the Ministry—Would the Chairman of Management Board of Cabinet table all terms of reference and conditions of any contracts signed within the last year between Canada Consulting Group Inc. and any Ontario government ministry, agency, board, commission or committee of the legislature. Would the Minister table the total amount of money contracted with this company as well as the amounts of each individual contract. *June 3, 1986.*
303. *Mr. Dean*—Enquiry of the Ministry—Would the Minister Without Portfolio responsible for Senior Citizens Affairs provide an accounting of the expenditures made to date out of the 11 million dollar fund for the extension of community support services for the elderly which he announced on January 28, 1986. *June 4, 1986.*
304. *Mr. Dean*—Enquiry of the Ministry—Would the Minister Without Portfolio responsible for Senior Citizens Affairs provide a detailed account of all costs incurred by the Government of Ontario to date in the preparation of his white paper on provision of services to the elderly, including all travel expenses incurred by himself and his staff during the consultation process. *June 4, 1986.*
305. *Mr. Rowe*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation report on where the new roadside rest stops are to be located, how many will be added and at what cost. *June 4, 1986.*
306. *Mr. Rowe*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation indicate whether the new slogan, “Ontario Incredible” was tested in any of the markets where the commercials are now running. If the new slogan and the new commercials were tested, could the Minister tell us where, by whom, at what cost to the province, and what the results of the tests were. *June 4, 1986.*

307. *Mr. Rowe*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation provide the criteria by which he will prove a return on investment for the costs associated with his Ministry's new commercials, and on what basis he will share that information with the House and Members of the Legislature and the tourism industry. *June 4, 1986.*
308. *Mr. Cousins*—Enquiry of the Ministry—Would the Minister of Community and Social Services provide the terms of reference for his review of behaviour modification techniques in provincial institutions. Specifically, which institutions will be reviewed, how many clients who receive this treatment will be reviewed, what are the approximate ages of these clients. *June 4, 1986.*
309. *Mr. Cousins*—Enquiry of the Ministry—Would the Minister of Community and Social Services table information regarding the Ministry's review of behaviour modification techniques in provincial institutions for disturbed youngsters and mentally retarded people. Specifically, the dates of the review, a list of individuals involved in the review, their respective positions and salaries, whether they have been hired solely for this review or have been seconded from a civil service position; how much will the review cost and how many man-hours will be spent on the review; will public input be solicited for this review; if so, how and where. *June 4, 1986.*
310. *Mr. Hennessy*—Enquiry of the Ministry—Would each Minister provide a list of former provincial or federal Liberal candidates who are now employed full or part-time on any Minister's personal staff. *June 4, 1986.*

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item No. 7

*Mr. Gregory*—Resolution—That in the opinion of this House, recognizing the population boom to be expected in the neighbouring regions of Metropolitan Toronto in the immediate future, the Government should proceed with the construction of a rapid transit line along Eglinton Avenue, servicing those neighbouring municipalities. *To be debated today.*

Ballot Item No. 8

*Mr. Rae*—Resolution—That in the opinion of this House, the Government should recognize in law that pension funds belong to employees and not to employers. Legislation should therefore be introduced immediately providing that any so-called surpluses, that is funds in excess of actuarial requirements, be used to improve benefits and to provide mandatory inflation protection, and that no surplus withdrawals be permitted for any other purposes. *To be debated today.*

Ballot Item No. 9

*Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings. *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 10

*Second Reading Bill 45, An Act to amend the Labour Relations Act. Mr. Barlow.* *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 12

*Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health

Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 13

*Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents. Mr. O'Connor. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

*Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act. Mr. Pouliot. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.*

Ballot Item No. 24

*Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.*

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
  
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
  
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
38. *Debated Thursday, June 5, 1986.*
39. *Debated Thursday, June 5, 1986.*
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.

42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.

What were the travel arrangements and who paid for their transportation. *February 6, 1986.*
253. *Mr. Bennett*—Enquiry of the Ministry—Would the Premier table in the House an explanation of how he obtained a special postage rate for the mailing of his Christmas cards and what volume is required in order that the rest of the members may enjoy the same savings. *February 6, 1986.*
254. *Ms Gigantes*—Enquiry of the Ministry—Would the Minister of Labour provide the following information: (a) which collective agreements in force in Ontario in 1985 had a non-discrimination clause; and (b) of those collective agreements in force in Ontario in 1985 that did have a non-discrimination clause, which ones included sexual orientation as a prohibited ground of discrimination. *April 23, 1986.*
255. *Mr. Barlow*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology advise the House why the Ministry's book entitled, "Starting a Small Business in Ontario", is currently being sold in the Ontario Government bookstore for \$3.00 when it was established during the Ministry's Estimates that the booklet cost \$1.25 to produce. Is it the usual practice of this Government to make a 140% profit at the expense of the taxpayers who have already funded the book's publication. If so, what are these profits used for. If this is not so, is the Government prepared to make retribution to the taxpayers that have been abused. Would the Minister also advise the House why a consultant at the Willowdale Branch of the Ontario Development Corporation told a citizen that the Ministry's booklet could be obtained at the Ontario Government bookstore "for about 75¢". Since this is obviously incorrect, would the Minister assure the House that all staff are

adequately informed about this publication to provide the public with the correct information. *April 23, 1986.*

256. *Mr. Cousins*—Enquiry of the Ministry—Would the Minister of Agriculture and Food give the names of companies that have received approval and the names of companies that have not received approval regarding amendments allowing for development on prime agricultural land, in York, Durham and Peel from July 1, 1985 to January 31, 1986. *April 23, 1986.*
257. *Mr. Runciman*—Enquiry of the Ministry—Would the Chairman of the Management Board of Cabinet please provide a list of the five travel firms who have had the highest volume of government business since July 1, 1985, along with the amount in dollars. *April 23, 1986. Interim Answer* tabled May 27, 1986. Approximate date information available June 13, 1986.
258. *Mr. Cousins*—Enquiry of the Ministry—Would the Minister of Community and Social Services table information regarding the Ministry's review of Ontario's social welfare/family benefits system. Specifically, the dates of the review, a list of individuals involved in the review, their respective positions and salaries, whether they have been hired solely for this review or have been seconded from a civil service position; how much will the review cost and how many man-hours will be spent on the review; will public input be solicited for this review; if so, how and where. *April 24, 1986. Interim Answer* tabled May 14, 1986. Approximate date information available May 22, 1986.
259. *Mr. Cousins*—Enquiry of the Ministry—Would the Minister of Community and Social Services provide the criteria for determining when public funds should be used to assist those in need. *April 24, 1986. Interim Answer* tabled May 14, 1986. Approximate date information available May 22, 1986.
260. *Mr. Cousins*—Enquiry of the Ministry—Would the Minister of Community and Social Services provide the amount designated to be spent on the audit of the foodbanks; how many man-hours are to be spent on the audit; which individuals are conducting the audit, their respective positions, salaries; any outside agencies involved in the audit by the Ministry; planned dates of the audit. *April 24, 1986. Interim Answer* tabled May 14, 1986. Approximate date information available May 22, 1986.
261. *Mr. Bennett*—Enquiry of the Ministry—Would the Premier provide the method and supporting documentation for his claim that administrative costs for the ten provincial Hospital and Medical Care Plans is 2.5%. *April 24, 1986.*
262. *Mr. Andrewes*—Enquiry of the Ministry—Would the Premier provide the names and addresses of all those invited to the opening of the Second Session of the Thirty-Third Parliament of the Province of Ontario, enumerating the costs incurred for the printing and mailing of the invitations, refreshments served in public areas (excluding those of the Lieutenant Governor's Reception), and all audio visual equipment. *April 24, 1986.*

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 7 and 8. *Debated Thursday, June 5, 1986.*

Ballot Item No. 9

*Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings. *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 10

*Second Reading Bill 45, An Act to amend the Labour Relations Act.* *Mr. Barlow.* *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 12

*Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 13

*Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents.* *Mr. O'Connor.* *To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

*Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act.* *Mr. Pouliot.* *To be debated on Thursday, June 26, 1986.*

Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.*

Ballot Item No. 24

*Mr. Callahan*—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:

1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item No. 9

*Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings. *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 10

*Second Reading Bill 45, An Act to amend the Labour Relations Act.* *Mr. Barlow.* *To be debated on Thursday, June 12, 1986.*

Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 12

*Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 13

*Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents.* *Mr. O'Connor.* *To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

*Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act.* *Mr. Pouliot.* *To be debated on Thursday, June 26, 1986.*

Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.*

Ballot Item No. 24

*Mr. Callahan*—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:

1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
  7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
- and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
41. *Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:

1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item No. 9

*Mr. Cooke* (Kitchener)—Resolution—That in the opinion of this House, recognizing that many lives are needlessly lost on Ontario's lakes through boating incidents and that existing search and rescue procedures often prove to be insufficient due to the elements and the physical size of search areas, the Governments should require all small craft on Ontario's Great Lakes to be equipped with two-way radios to allow boaters, when in distress, to communicate with rescuers and facilitate prompt and thorough search proceedings. *To be debated today.*

Ballot Item No. 10

*Second Reading Bill 45, An Act to amend the Labour Relations Act. Mr. Barlow. To be debated today.*

Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 12

*Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 13

*Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents. Mr. O'Connor. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

*Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act. Mr. Pouliot. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 16

*Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Develop-

ment Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.

Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.*

Ballot Item No. 24

*Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.*

## NOTICES

### GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
  6. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1986, and ending October 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

- assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
41. *Debated Thursday, June 12, 1986.*
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:

1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.

241. *Mr. Jackson*—Enquiry of the Ministry—Would the Minister of Government Services inform the House what projects are being planned for the 1986-87 fiscal year to conserve energy in government buildings. What are: (1) their estimated costs; (2) the estimated savings to be realized from reduced energy consumption; (3) the names of the contractors involved and the value of the contracts; (4) the processes employed for the awarding of each contract. *February 6, 1986.*
242. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House how many trade shows, exhibits and seminars with Ontario businesses were undertaken by the Ministry of Government Services in 1985. How many are planned for 1986. Please provide figures as to how many Ontario firms sold goods to the government and their value in 1984-85 and 1985-86. *February 6, 1986.*

243. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House if she has prepared any estimates for the cost of needed restoration to the Legislature Building. What work has been identified as essential and what is the estimated cost of such work. How much has been classified as discretionary and what are those estimated costs. What costs are associated specifically to the introduction of the television in the Legislature. *February 6, 1986.*
244. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services inform the House of the number of parcels of land the Minister has identified for potential disposal. What are the sizes and locations of these holdings. What does the Ministry estimate to be the value of each of these holdings. *February 6, 1986.*
245. *Mr. Villeneuve*—Enquiry of the Ministry—Would the Minister of Government Services provide the following information regarding a series of surveys which the Ministry undertook in 1984 in municipalities across the Province to document the properties owned and leased by the government; (1) Would the Minister outline the changes she had initiated as a result of the studies; (2) Would the Minister table these surveys. *February 6, 1986.*
246. *Mr. Cousins*—Enquiry of the Ministry—Would the Minister of Agriculture and Food provide the names of all parties that were not exemptions to Ontario Food Guidelines through Official Plan Amendments that were given from July 1, 1985, to December 31, 1985, and the reasons for their exclusion from these exemptions. *February 6, 1986.*
247. *Mr. Bennett*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology please provide the following information concerning the Minister's trip to California: (1) In what capacity did the Minister undertake this trip; (2) What was the purpose of the trip; (3) When were the final preparations for the trip completed; (4) Would the Ministry provide a copy of the agenda followed by the Minister; (5) Please provide the names and positions of the people who accompanied the Minister; (6) What was the cost of food, travel, entertainment and local transportation; (7) Does the Minister intend to report to the House as to the success of this trip. *February 6, 1986.*
248. *Mr. Stevenson*—Enquiry of the Ministry—Would the Minister of Agriculture and Food inform the House how much money has been paid out to farmers during 1985-86 for assistance for drainage in Ontario. How many municipalities allocate less than the 60% maximum which currently exists. What are the names of these municipalities. *February 6, 1986.*
249. *Mr. Stevenson*—Enquiry of the Ministry—Would the Minister of Agriculture and Food inform the House, as of January 15, 1986, how many applications for assistance under OFFIR had been received, how many payments had been made, the total amount of those payments, the number of applications approved for payment and the amount of those payments, and how many applications had been returned for more information. As of January 15, 1986, what percentage of the applications were from farmers in each of the following commodity groups: (a) dairy; (b) feather industries; (c) fruit and

vegetables; (d) cash crops; (e) tobacco; (f) beef; (g) pork; (h) other. *February 6, 1986.*

250. *Mr. Ashe*—Enquiry of the Ministry—Would the Premier list all of the receptions given by the Premier's Office and all ministries of the government since July 1, 1985. Will the Premier list the nature of the function, the place of the function, the type of group invited and the number of people in attendance and provide details of the costs of each function. *February 6, 1986.* *Interim Answer* tabled May 14, 1986. Approximate date information available June 30, 1986.
251. *Mr. Taylor*—Enquiry of the Ministry—Would the Premier table all correspondence, background material and resumes which led to the appointment of Dr. John Hazlett, twice a Liberal candidate in Kingston and the Islands, to the position of Chairman of the Kingston area Health Council. Please state the length of the appointment. *February 6, 1986.*
252. *Mr. Gordon*—Enquiry of the Ministry—Would the Premier table the names of provincial Cabinet ministers and all Liberal backbenchers and their respective staff, who were in Windsor for a two-hour cocktail party in support of the area Liberal fundraising efforts. Which Ministers, Parliamentary Assistants and backbenchers were in Windsor on official business that day. Which Ministers, Parliamentary Assistants and backbenchers, their staff were at the cocktail party but were not on Government business in Windsor. What were the travel arrangements and who paid for their transportation. *February 6, 1986.*
253. *Mr. Bennett*—Enquiry of the Ministry—Would the Premier table in the House an explanation of how he obtained a special postage rate for the mailing of his Christmas cards and what volume is required in order that the rest of the members may enjoy the same savings. *February 6, 1986.*
254. *Ms Gigantes*—Enquiry of the Ministry—Would the Minister of Labour provide the following information: (a) which collective agreements in force in Ontario in 1985 had a non-discrimination clause; and (b) of those collective agreements in force in Ontario in 1985 that did have a non-discrimination clause, which ones included sexual orientation as a prohibited ground of discrimination. *April 23, 1986.*
255. *Mr. Barlow*—Enquiry of the Ministry—Would the Minister of Industry, Trade and Technology advise the House why the Ministry's book entitled, "Starting a Small Business in Ontario", is currently being sold in the Ontario Government bookstore for \$3.00 when it was established during the Ministry's Estimates that the booklet cost \$1.25 to produce. Is it the usual practice of this Government to make a 140% profit at the expense of the taxpayers who have already funded the book's publication. If so, what are these profits used for. If this is not so, is the Government prepared to make retribution to the taxpayers that have been abused. Would the Minister also advise the House why a consultant at the Willowdale Branch of the Ontario Development Corporation told a citizen that the Ministry's booklet could be obtained at the Ontario Government bookstore "for about 75¢". Since this is obviously incorrect, would the Minister assure the House that all staff are

adequately informed about this publication to provide the public with the correct information. *April 23, 1986.*

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 9 and 10. *Debated Thursday, June 12, 1986.*

Ballot Item No. 11

*Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 12

*Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces. *To be debated on Thursday, June 19, 1986.*

Ballot Item No. 13

*Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents. Mr. O'Connor. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

*Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act. Mr. Pouliot. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 16

*Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.

Ballot Item No. 21

*Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier.*

## Ballot Item No. 24

*Mr. Callahan*—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

## NOTICES

### GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
  6. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1986, and ending October 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.
- 

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
  1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.

2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.

### GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
  6. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1986, and ending October 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

### PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

- assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.

2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.
46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on jury awards.
